

## Request for Information – December 2016

Grane family vault (grave 4,894, square 34). The surviving inscription records the burial of Elizabeth Jane Grane (d. 18 August 1905, aged 80). Other burials therein are: Nathaniel and William Grane (1856), Isabel Anna Garwick (1870), William James Grane (1892), and Harriette Jane Grane (1893).

A Faculty to restore this Grade 2 listed memorial was granted by the Consistory Court of the Diocese of Southwark in 1994, Lambeth having all but demolished the monument during clearance works. The listing description, which refers to 'William Crane', details '*a stone slab with pink granite cross having foliated arms and continuous vine trails to the stem. Bronze inscription tablet in classical trajanic lettering*'. If we had a drawing or photograph we could proceed with the restoration. If anyone has any information relating to either the Grane family, or the monument please contact either [secretary@fownc.org](mailto:secretary@fownc.org), or [chairman@fownc.org](mailto:chairman@fownc.org).
